
The Drug Supply Chain Security Act & McKesson Medical-Surgical

Under the DSCSA, all pharmaceuticals sold will be required to include a serial number, however, manufacturers have elected not to put serial numbers on individual vials or low unit of measure pharmaceuticals. Manufacturers will instead be serializing boxes and cases of pharmaceuticals.

Beginning November 2019, McKesson Medical-Surgical will no longer be able to open packages of pharmaceuticals to break them down for low unit of measure sale (vials and eaches), since these individual items will not include a serial number.

Instead, McKesson will work with repackagers who will break down and repackage pharmaceuticals by the each or vial, placing a serial number on them to maintain compliance with the DSCSA and to continue meeting your pharmaceutical needs.

How does this repackaging process impact you?

Due to the increased expense related to repackaging, relabeling, handling and transportation, you will see an increase in price for pharmaceuticals sold by the vial or each.

Additionally, low unit of measure pharmaceuticals will be drop-shipped to meet timing guidelines for the new serialization requirements. Non-refrigerated items have a drop-ship fee of \$10, while refrigerated items have a drop ship fee of \$25.

For questions, please contact your McKesson Medical-Surgical Account Manager.

Low unit of measure pharmaceuticals drop-shipping now

See below for a complete list of affected items and when they'll begin drop-shipping.
