

Specialty Drugs Reference Catalog

Summer 2020

Distribution you can count on

- Over 17,000 pharmaceuticals in stock nationwide
- Drug Supply Chain Security Act (DSCSA)-compliant
- Reliable multi-channel communications platform
- Real-time access to purchasing data and product documents
- Safe storage and fast professional delivery

Featured Product >

Get to know ZILRETTA®

ZILRETTA® is the first and only FDA-approved extended-release intra-articular therapy for osteoarthritis-related knee pain utilizing microsphere technology.

The image shows a white rectangular box for Zilretta. The top left corner has 'NDC 70801-003-01' and 'Rx Only'. The brand name 'Zilretta™' is prominently displayed in a bold, sans-serif font. Below it, in smaller text, is '(triamcinolone acetonide extended-release injectable suspension)'. A green pill-shaped graphic contains the text '32 mg per vial'. Below that, it says 'For intra-articular injection only. Single-dose kit. Discard unused portion.' At the bottom left, a dark blue pill-shaped graphic contains the text 'Must be reconstituted with the supplied diluent.' On the right side of the box, there is a list: 'This carton contains: • 1 vial of Zilretta microsphere powder • 1 vial of diluent (5mL) for Zilretta • 1 sterile vial adapter'. The Flexion logo is at the bottom right.

Specialty drugs

Don’t have time to keep up with the changes and all the new products?

We do. Our priority is making sure your practice is up to date and benefits from safe medical distribution, ordering efficiency, reliable communications, and stable pricing programs. All these options will help you create a more personalized patient experience.

We distribute more pharmaceutical products to alternate care settings than any other distributor and with every order, you can count on *choice, reliable distribution, smart solutions and a team of experts at your side.*

Explore our growing specialty drugs portfolio and helpful resources with this interactive catalog.

Childhood and adult vaccines

- We have the vaccines you need for adults and pediatrics
- One order to place for all supplies on one invoice
- Save on shipping and receive next day delivery on orders
- Confidently order what you need and return expired vaccines, if necessary.
- All necessary DSCSA regulatory data maintained easily on McKesson SupplyManagerSM

Influenza vaccines

Let McKesson FluWise[®] help you get ready for flu, with our comprehensive, year-round program giving you access to a variety of flu products, savings and support every step of the way.

When you order flu vaccines from us, you get:

- No limit on shipping locations per order
- Dedicated flu team
- Extended terms
- Seasonal supplies
- Year-round promotional offers

Generics

No matter your care setting we have the generics you need, including:

- Corticosteroids
- Analgesics
- Anti-infectives
- Anesthetics
- Cardiovascular agents
- Ophthalmic agents
- Hormone agents and suppressants
- And more!

Pharmaceutical services

- CSOS – Electronic CII Ordering
- McKesson Business Analytics
- Pharmaceutical Disposal
- SDS Reporting

New products

TRILURON™

McKesson Item Number: 1153617

Manufacturer Fidia Pharma has introduced TRILURON™ (sodium hyaluronate), a three-injection hyaluronic acid (HA) based intra-articular viscosupplements treatment.

The chemical formulation of TRILURON™ is identical to Hyalgan®, Fidia's five-injection regimen.

TRILURON™ is used in orthopedic pain management.

- HCPCS Code: J7332

 See updated **Package Insert** for full prescribing information including warnings, precautions and side effects.

DEXYCU®

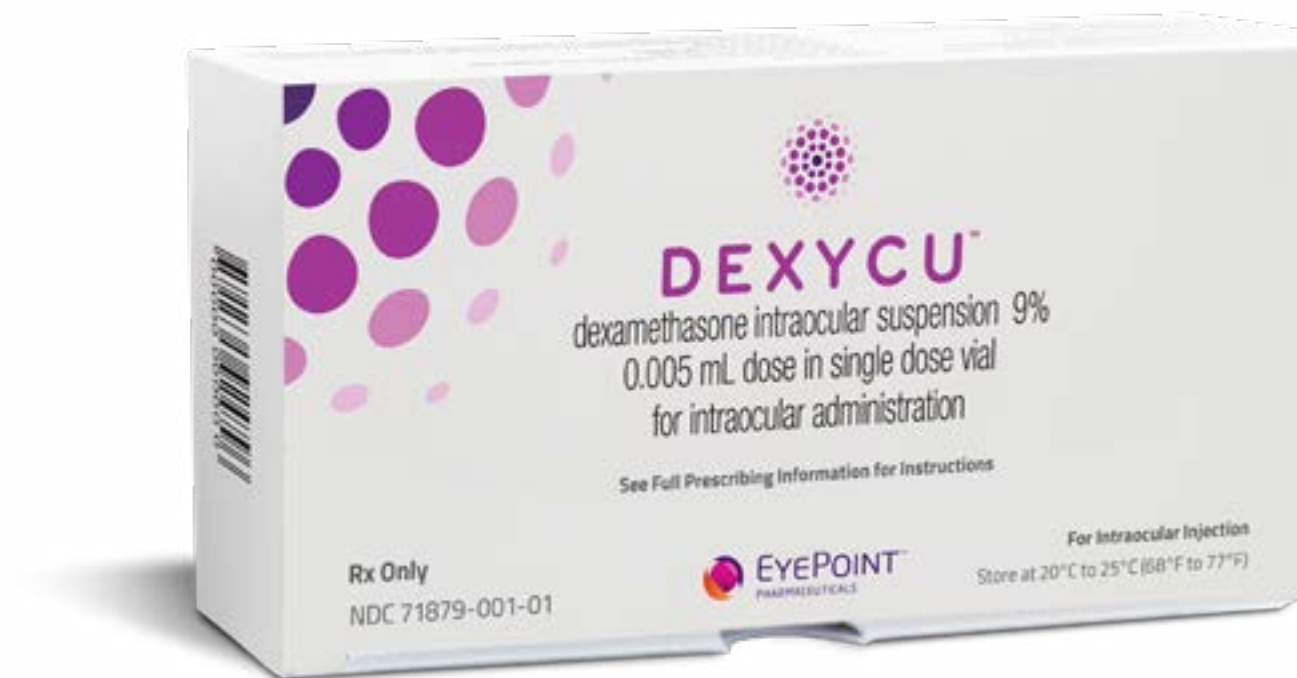

McKesson Item Number: 1160736

DEXYCU® (dexamethasone intraocular suspension 9%) is the FDA-approved, single-dose, sustained release, intracameral steroid for the treatment of cataract post-operative inflammation.

DEXYCU® is injected into the eye at the end of eye surgery and its effects may last up to 30 days.

DEXYCU® is used in surgery centers.

- HCPCS Code: J1095

 See updated **Package Insert** for full prescribing information including warnings, precautions and side effects.

Hyaluronic acid (HA) injections

Deciding on the right sodium hyaluronate (HA) injection for your patients can be difficult. Especially when you are weighing clinical benefits, patient profiles and product reimbursement. Our broad portfolio of HA injections can help support the diverse needs of your practice.

Distributing viscosupplementation (hyaluronic acid) injectable treatments to:

- Orthopedics
- Pain management clinics
- Physical therapy
- Multi-specialty groups
- Rheumatology
- Family practice
- Health systems
- And more

Manufacturer updates

- Fidia launches TRILURON®, a 3-injection therapy to join 2-injection Hymovis® and 5-injection Hyalgan®. View revised [Package Insert](#).
- McKesson is now administering GPO contracts on Synvisc® and Synvisc-One®.

Featured product

ZILRETTA®

McKesson Item Number: 1134726

ZILRETTA® is the FDA-approved extended-release intra-articular therapy for osteoarthritis-related knee pain utilizing microsphere technology.

In December 2019 the Food and Drug Administration (FDA) approved a supplemental New Drug Application (sNDA) that includes and updated Limitation of Use statement for repeat administration among other changes.

- HCPCS Code: J3304

 See updated **Package Insert** for full prescribing information including warnings, precautions and side effects.

Osteoarthritis

OA increases the risk of developing heart disease by 50%²

Risk factors

- Age (those 50+ are most at risk)
- Joint injury
- Overuse
- Obesity
- Weak muscles
- Genetic disposition
- Gender (women are most likely to develop OA)

Patient Impact

- Pain
- Depression
- Activity limitations
- Work limitations

Professional resources

Protecting and improving Medicare for our nation's seniors

Under Executive Order #13890, titled Protecting and Improving Medicare for Our Nation's Seniors (specifically under [Section 5](#)), the Centers for Medicare and Medicaid Services (CMS), plans to propose reform to the Medicare program that would significantly impact Physician Assistants (PAs) and Advanced Practicing Registered Nurses (APRNs).

On January 17, 2020, the American College of Cardiology provided a written response to CMS outlining specific examples of cardiologic services that APPs should be able to provide under general physician supervision. Read the [ASC Letter](#).

Drug Supply Chain Security Act (DSCSA)

DSCSA is administered by the Food and Drug Administration (FDA) and has these objectives:

- Pharmaceutical drug integrity
- Traceability of drugs through supply chain
- A system of unique product identifiers
- Robust transaction history and information
- Efficient verification requests, responses to suspect/illegitimate products, effective recalls as needed
- National licensure standards for wholesale distributors and third-party logistics organizations

Next Nov. 27, 2020, primary care providers and other dispensers may only accept products with valid Product Identifier.

Visit the [FDA DSCSA Website](#) for more information.

McKesson Medical-Surgical is DSCSA compliant.
