

McKesson CSOSManagerSM

Convenient one-stop shopping from Class II narcotics to medical-surgical and office supplies

Seamlessly integrated with McKesson SupplyManagerSM, **CSOSManager gives you access to our portfolio of Class II (CII) narcotics, real-time access to reporting and easy online returns.** Using the Drug Enforcement Agency (DEA)-approved public key infrastructure (PKI) technology, CSOSManager permits secure electronic transmission of your CII narcotic orders without using manual paper 222 forms.

To use CSOSManager, those who want to sign electronic orders for controlled substances must enroll individually with the DEA to get a personal CSOS certificate.

Once you are enrolled and install your digital certificate, you can order CII narcotics and digitally sign for them on SupplyManager.

Five benefits of CSOSManager

4 Flexible

–Paper 222 forms are still supported for contingencies and returns

–Provided at no additional cost
